Nanotechnology Unit

The world of the small
Order of Activities for Unit

1. Video – What is Nanotechnology: Applications

2. Power point on Nanotechnology

3. How Big is It – Size and Scale activity

4. Introduction to Nanotechnology Using the Creative Problem Solving Model – Advantages/Disadvantage article

5. Building Small Research

6. Nanotechnology Product Project
Instruments used in Nanotechnology

Dissecting Microscope

Confocal Microscope

Electro Spinning Machine
Scanning Electron Microscope

Atomic Force Microscope
